

# Important Update on the LIRR EXPANSION PROJECT

## THE SOUTH 12TH STREET PEDESTRIAN UNDERPASS

In order to install the new ADA compliant underpass at South 12<sup>th</sup> Street, crews will work during the day and overnight during a double track outage weekend, Friday, June 11<sup>th</sup> to Sunday June 13<sup>th</sup>.

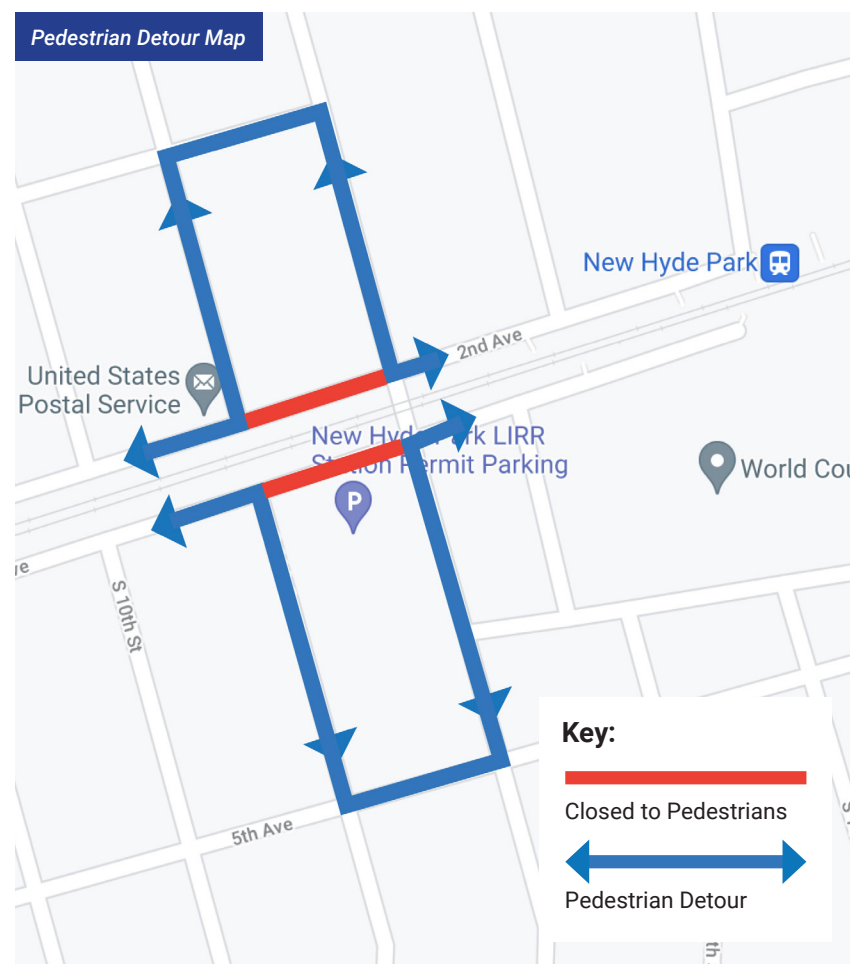

Crews will install a precast box structure, beneath the tracks, which will act as the foundation of the new pedestrian underpass. As a result, the following temporary restrictions to pedestrian access will be in place:

- Pedestrian access will be restricted along 2<sup>nd</sup> Avenue, between South 11<sup>th</sup> Street and South 12<sup>th</sup> Street for the duration of this double track outage weekend.
- Pedestrian access will be restricted along 3<sup>rd</sup> Avenue between South 11<sup>th</sup> Street and South 12<sup>th</sup> Street until approximately Wednesday, June 16<sup>th</sup>.

Access to businesses will be maintained throughout the duration of this work. Flaggers will be on site to assist with entering and exiting these areas.

Following the double track outage weekend, crews will continue working to relocate underground utilities on both 2<sup>nd</sup> Avenue and 3<sup>rd</sup> Avenue, from South 12<sup>th</sup> Street to South 11<sup>th</sup> Street, until late June.

Construction on the South 12<sup>th</sup> Street Pedestrian Underpass is expected to be complete this fall. The new ADA compliant underpass will maintain connectivity and access to both the north and south sides of the tracks. This project element was developed in close coordination with the community.
